

CARBONITE COMPUTER BACKUP

BACK UP UNLIMITED COMPUTERS FOR ONE LOW FEE

Carbonite helps businesses avoid the high cost of losing critical business information by protecting them from the most common forms of data loss. We provide advanced, cloud-based computer backup and recovery solutions that are priced right for businesses of all sizes.

AUTOMATIC CLOUD BACKUP & RECOVERY FOR NONSTOP BUSINESS

AUTOMATIC CLOUD BACKUP

Carbonite automatically protects important business data so users don't have to.

- Automatic, continuous backup of business data and files
- Files are backed up offsite to Carbonite's secure data centers
- Incremental backups capture any changes to new or existing files
- Virtually no human intervention required

BACKUP FOR UNLIMITED COMPUTERS, NAS & EHD

With Carbonite, when your business grows, your subscription price stays the same.

- Protect an unlimited number of computers and storage devices with one subscription
- Keep costs low and predictable with no per-machine or per-device fees and just one low annual subscription fee
- Simply install Carbonite on any machine you want protected

SIMPLE AND RELIABLE FILE RECOVERY

Recover in as little time as possible from any location to any piece of hardware through the user-friendly Carbonite dashboard.

- Save files and folders in the cloud for simple, reliable recovery
- Recover from malware infections with point-in-time restore
- Store files for up to one month from deletion
- Restore all files, one file or any number in between

Carbonite Saves Time & Effort from Installation and Beyond

Remote deployment and management saves significant time, especially in larger IT environments. System administrators have complete control over how they want to install our backup software and deploy custom policies. If there's a change in policy, the Carbonite application will automatically implement changes at regularly timed intervals. Users don't have to lift a finger, and there's little to no disruption.

SAVE TIME WITH REMOTE DEPLOYMENT & MANAGEMENT

Remote deployment & management makes it easy to install Carbonite and manage what gets backed up across an entire business.

- Install Carbonite simultaneously on multiple PCs
- Create custom backup policies by group, role, device, etc.
- Centrally manage users and backup policies through the Carbonite portal

ADVANCED ENCRYPTION FOR SECURITY AND COMPLIANCE

Carbonite uses advanced encryption both at rest and in flight to protect data from malicious threats.

- Transport Layer Security (TLS)
- 128-bit Blowfish encryption for files at rest
- Supports FERPA, GLBA and HIPAA compliance
- Compliant with SOC 2 (SAS 70) standards

ANYTIME, ANYWHERE ACCESS & FILE SHARING

Enjoy nonstop file access whether on the road or working from home.

- Files backed up to the Carbonite cloud are accessible anytime, anywhere
- Use our free mobile apps for iOS and Android to view or download files
- Access files from any web browser using the secure Carbonite login
- Share files and collaborate with remote coworkers from anywhere

U.S.-BASED SUPPORT 7 DAYS A WEEK

Our award-winning, U.S.-based business support team is ready to help 7 days a week with everything from install to restore.

- Use free valet install and have a Carbonite business team member install and set up the software for you
- Call, email or chat with our dedicated U.S.-based, business support team 7 days a week from 8:30 a.m. to 9 p.m. ET
